EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claims 4 and 5, line 2; delete "a" before "opening" and instead insert --an--;

In claim 4, line 13; delete "a" before "ultrasonic" and instead insert --an--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination of the claimed method as amended and supported by the reasons provided in the remarks of the amendment filed on 08/20/2007. In particular the prior art of record fails to disclose the claimed method of manufacturing a toner container provided with an opening comprising the combination of fixing step, filling step, closing step, pressing step, and sealing step via welding a cover member and a toner container with each other by an ultrasonic vibration welding member which is in contact with a part of a portion to be welded while changing the contact portion around the opening, wherein a temperature of the portion being welded is higher than a softening point temperature of the toner, see for example Figs. 11-13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
